ARCHIVE

Under ARCHIVE you can find furniture that Gärsnäs has been making for many years. These are "classics", our cultural legacy that constitutes a vital part of our long history. Furniture under ARCHIVE is available and produced for specific projects. It requires longer lead times and a minimum volume is required. Please contact us for further information and price estimates.

TERMS OF SALE AND DELIVERY

PRICES

All prices are quoted in EURO excl. VAT.

RETENTION OF TITLE

The product shall remain the property of Gärsnäs, until paid for in full by the buyer. Until full payment has been made, the buyer shall not be entitled to incorporate, consume, process or resale the product to a third party.

TERMS OF DELIVERY

Delivery Ex works. Deliveries will be effected only according to our terms of payment and delivery. Additional packaging costs will apply. Pallet is charged at EURO 21. Pallet collar is charged at EURO 15, and lid at EURO 9. Additional costs will apply if specific requirements for time and date of delivery are requested.

TRANSPORT DAMAGES

Any transport claims regarding transport damages must be made to the transporter and to Gärsnäs in writing within 6 days after receipt of the goods.

TERMS OF PAYMENT

Payment in advance, or according to specific agreement. For delayed payments, Gärsnäs reserves the right to charge penalty interest at 2% per month.

GUARANTEE

All products carry a five year guarantee from the date of delivery, subject to normal wear and tear. Gärsnäs reserves the right to make changes in designs without notice..

SURFACE TREATMENT

The wood is treated with non-transparent stain or oil according to the standard. For colours other than the standard colours, a one-time cost of EURO 215 net price plus a regular surcharge will be charged. Price quotes for RAL powder coatings are presented on request.

RESERVATIONS

Gärsnäs reserves the right to make changes in designs without notice.

MEASUREMENTS

All dimensions refer to the widest, deepest, highest point on the products.

DELIVERY AND RETURNS

When receiving delivery of goods from Gärsnäs, it is the recipient's responsibility to inspect the goods before signing the consignment note. When reporting damage, etc., caused by the transport, the process is greatly facilitated if this is documented on the consignment note. If transport damage to goods is discovered at a later time, it is much more difficult to prove and therefore also return the goods.

CARE INSTRUCTIONS

Care instructions can be found at: **garsnas.se**

QR-CODE

Every product manufactured at Gärsnäs is provided with a QR code which reports, among other things, order number, manufacturing period, materials and care instructions.

ABOUT MÖBELFAKTA

Many of our products fulfill Möbelfakta's criteria on quality, environment, and responsible supply chains.

QUALITY – Gärsnäs' furniture lives up to international and technical standards. Furniture that meets Möbelfakta's quality criteria is third-party examined and verified. They can withstand normal wear and tear and have the required safety and functionality for the intended setting.

ENVIRONMENT – Gärsnäs is environmentally certified according to ISO 14001. Our production is adapted to high environmental requirements at all levels, from raw materials to finished products. Möbelfakta's environmental requirements make high demands on Gärsnäs' operations and the materials used in manufacturing our furniture, for example, traceability, origin of wood-based materials, chemicals in surface treatments, and textiles.

RESPONSIBLE SUPPLY CHAINS – All suppliers in our supply chain undertake to, among other things, follow the UN Global Compact and the ten principles of human rights, labor, environment, and anti-corruption. Gärsnäs has adopted a code of conduct and thus committed ourselves to the principles and ensuring that they are respected in our operation and throughout our supply chain.

Read more about our environmental and quality work at: **garsnas.se**

ENVIRONMENTAL POLICY

Gärsnäs AB develops, manufactures and renovates furniture of high quality, design and durability together with well-known designers and experienced staff. We consider active environmental work a self-evident part of all company processes and strive to become circular by 2030.

We will work for circular furniture flows with a high degree of reuse and recycled material to minimize waste along the entire value chain.

We will design, manufacture, and sell sustainable furniture with a long lifespan, low environmental and climate impact, and where the products and materials can be easily recycled and refurbished.

We will develop circular furniture offers and, whenever possible, advocate refurbishing our products over new purchases.

Our premises shall run on renewable energy, and we shall reduce the consumption of fossil fuels from our transport throughout the value chain.

We will promote local suppliers as much as possible to reduce emissions from transport, increase transparency in the value chain, and create good conditions for collaborations between local actors.

When purchasing materials and chemicals, we shall choose alternatives that, as far as possible, have a low environmental and climate impact and make possible circular furniture flows.

We shall prevent emergencies and pollution by safely managing chemicals and regularly maintaining machines, premises, and equipment to protect our environment.

We shall constantly improve our environmental work and follow laws and other requirements to improve our environmental performance.

Every employee at Gärsnäs AB shall undergo basic environmental training.

2030

A CIRCULAR GÄRSNÄS

By 2030, Gärsnäs has become circular and are a natural part of the circular economy. To help us achieve this, we have formulated a vision expressed in three points.

1

100% circular design for a long lifespan and zero waste.

We continue to develop longer lifespans for our products. The design stage must facilitate renewal of our furniture to its original condition or an upgrade. All materials must be reusable in new products or returned to nature. Products must be adaptable to new business models and offerings in the future. Inappropriate chemicals must be phased out.

2

100% responsible offering.

Our furniture should not just be manufactured and sold. Our aim is to lead the development of a circular furniture offering. We will offer maintenance throughout the entire life cycle of our furniture. People choosing Gärsnäs furniture will receive a proactive plan for its care and maintenance. When the furniture is no longer needed, it should be easy to resell back to Gärsnäs or one of our partners or another firm in the market.

3

100% renewable energy.

Our entire production process, as well as other parts of the business, for example transportation, must be powered by renewable energy. We plan to produce our own electricity locally using solar power, wind or other renewable energy sources.

FABRICS

FABRIC REQUIREMENT The stated fabric requirement is estimated for fabrics 130/150 cm wide. Pattern coordination requires a greater length of fabric. More info upon request.

MÖBELFAKTA Fabrics and leather ought to be sustainably produced, safe to use, and maintain good quality. Therefore, all fabrics and leather in Gärsnäs' price list meet the requirements in Möbelfakta. The fabrics are also Oeko-Tex and/or EU Ecolabel certified. We particularly recommend fabrics that have the EU Ecolabel.

GÄRSNÄS

ARCHIVE

Under ARCHIVE you can find furniture that Gärsnäs has been making for many years. These are “classics”, our cultural legacy that constitutes a vital part of our long history. Furniture under ARCHIVE is available and produced for specific projects. It requires longer lead times and a minimum volume is required. Please contact us for further information and price estimates.
