Why choose TreCe?

We are one of the leading Nordic suppliers of storage furniture. We have reached this position by developing continuously. With over forty years of experience we have together with our customers managed to collect a lot of knowledge, and through the years we have learned what works. Our long experience together with a strong innovation drive drives us forward and creates the conditions for continuously developing new storage and recycling solutions.

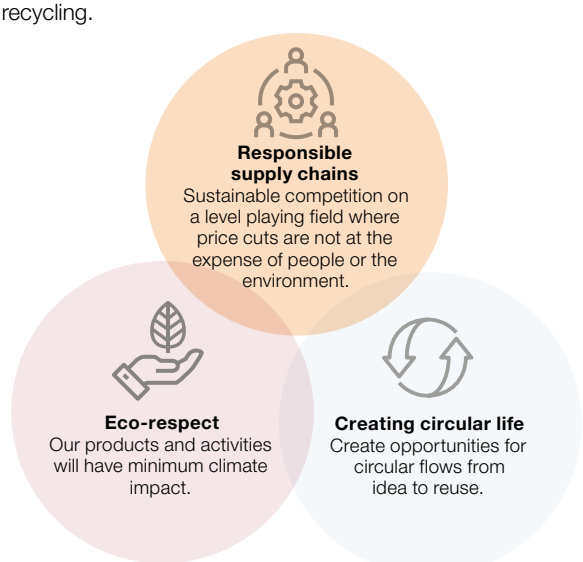
Design & sustainability

Our journey in the circular transition has begun. We want to become part of a world in balance and develop products with eco-respect, responsible supply chains and circular life.

From idea to reuse, in decision and action, this is where we create new conditions and opportunities for sustainable development and circularity.

What does this mean for us?
This means respecting ecological limits, natural resources and climate change. Supporting responsible suppliers and investing in sustainable competition on equal terms, where prices are not cut at the expense of people nor the environment. As well as giving products a circular life and creating space for circular flows, from the idea to reuse for a sustainable future.

Join us in creating the next generation of storage and recycling.



Design and method
We look at design from a broader perspective which always includes aesthetics as well as sustainability and function. The product development phase is crucial to a product's environmental impact and durability. That's why we work closely with designers and manufacturers to make informed decisions. With a life cycle perspective, we look at the climate impact throughout the product's life, from raw material extraction, production, transport, distribution, use, repair/restoration to material recycling for new products.

How we work and what we do
To develop the next generation of storage and recycling, we need to create change. But change doesn't happen overnight, but simple and small actions make a difference. Doing something is always better than nothing!

Join us in our circular transition towards a sustainable future and a circular economy to become part of a world in balance.

Read about what we do to get there on the page 102.

Cooperation is key

We think it is important with our customers' opinions because they give us valuable insights into which products we need to develop to meet market demand. When we start a project, we are therefore careful to investigate what needs exist and develop a plan for how we can solve them together. By working closely together, we can ensure that our customers' thoughts and ideas are with us from the first call to the completed project.

We are experts in storage
We are happy to share our knowledge with our customers, whether it is about flexibility and function in the modern office or smart solutions for the activity-based offices of the future. With our experience and knowledge, we create an optimal solution.

Feel free to contact us for a presentation, to find out more about how we can together create a working solution.

Our designers
At TreCe, we have designed several of our products ourselves. These have in most cases taken shape based on needs we have seen in the market but also from the input that our customers give us. We have also chosen to collaborate with other designers. This has in several cases proved to be a stroke of luck. With new input, innovative solutions and a fantastic design, we have won international awards. Cooperation is the key.

Our designers

Kauppi & Kauppi

Kauppi & Kauppi is a design duo working with furniture, lighting and industrial design - from large spatial objects down to objects in the scale of the hand. Nina and Johan have their roots in the south and north of Sweden and both have a Master's degree in Design from HDK, the Academy of Art and Design at the University of Gothenburg.

Kauppi & Kauppi's close collaborations with manufacturers have been recognized with several national and international design awards.

Bernstrand & Borselius

The two designers, Thomas Bernstrand and Stefan Borselius, have been working together for 8 years, but both have been in the industry considerably longer.

Bernstrand and Borselius have been running their own design offices for over 20 years, specializing in furniture and interior design. Bernstrand in Stockholm and Borselius in southernmost Skåne. Over the years, they have worked with several prestigious companies together and separately. Last year, they jointly launched a collaboration with TreCe.

Jangir Maddadi

Jangir is passionate about creating objects with a strong identity. Every millimetre of his design is contemplated. Each object has its own history. Every product he creates is a beautiful, functional sculpture. He strives to design meaningful products that live on from generation to generation.

One ambition is to always create innovative and sustainable products that are functional, beautiful and completely independent of trends.Products that are neither modern nor classic, they are timeless.

Annica Doms

Educated at Luleå University of Technology. Annica's Master degree project, Kite Bin for TreCe, has been awarded the Red Dot Design Award and the German Design Award. Today, Annica is a design consultant at Studio Doms.

The collaboration with TreCe is based on relevant and well-thought-out design that supports every function, inspired by functional design from the past.

David Doms

Designer and founder of Studio Doms. David has a master's degree in industrial design from Luleå University of Technology and has also studied lighting and luminaire design.

Studio Doms was started in 2010 and the company is today active in the areas of furniture design, product design, design strategy and graphic design.

Ebba Hellberg & Sigrid Ljungström

A contributing factor to TreCe's continuous development of innovative design solutions is our recurring collaborations with design students. Recycling unit Cloud is a well-priced example, developed together with Chalmers students Ebba Hellberg and Sigrid Ljungström.

Cloud has quickly developed into a product family and recently won first prize in the German Design Award 2019, Excellent Product Design in the category office furniture / environmental sorting.

Space

Personal storage

Design | **TreCe**

Flexible modules designed for both personal and general storage in offices and public environments. Space is easy to integrate thanks to its cohesive and thoughtful design. Well-crafted details such as doors in a seamless design, shoe shelves, and benches that complement with fronts create a seamless and stylish atmosphere. This is also reflected in the fact that Space is a sustainable choice, as it is approved according to Möbelfakta, made from sustainable materials, manufactured with social responsibility, and quality tested at RISE.

Choose from various heights of frames and fronts. Frames in standard white or painted in any NCS color of your choice. Doors in painted MDF, any NCS color of your choice, oak, and ash laminate with a seamless design. Open frames such as clothing storage, benches, shoe shelves, etc., are available in painted NCS color of your choice as well as in oak and ash laminate. Explore the entire Space series, which includes personal and communal storage, wardrobes, seating modules, cabinets, recycling units, and more.

Space
Personal storage

Flexible modules designed for both personal and general storage in offices and public environments. Space is easy to integrate thanks to its cohesive and thoughtful design. Well-crafted details such as doors in a seamless design, shoe shelves, and benches that complement with fronts create a seamless and stylish atmosphere. This is also reflected in the fact that Space is a sustainable choice, as products in white are approved according to Möbelfakta, made from sustainable materials, manufactured with social responsibility, and quality tested at RISE.

The modules in the Space series are created to fit together, allowing you to let your imagination flow freely when building your unique solution. Choose from various heights of frames and fronts. Frames in standard white or painted in any NCS colour of your choice. Doors in painted MDF, any NCS colour of your choice, oak, and ash laminate with a seamless design. Open frames such as clothing storage, benches, shoe shelves, etc., are available in painted NCS colour of your choice as well as in oak and ash laminate.

Explore the entire Space series, which includes personal and communal storage, wardrobes, seating modules, cabinets, recycling units, and more. Space has a plinth as standard. For a different look, the plinth can be replaced with lacquered leg frames for an additional charge. The leg frames are available in our 11 standard colours.

Locks and Closures
We offer various types of locks and closures for our doors, such as electronic RFID locks, code locks, cabinet locks, padlock fittings, and push open. For network-based locks, please contact TreCe for personalized advice.

Accessories
For Space storage cabinets, accessories such as movable shelves, clothes rails, mirrors, hooks, mats, the cork box Stuff, and Office products are available.

Customisation
Space can be customized in both material and dimensions if you wish to put your own mark on the furniture. Contact TreCe for advice and a quote.

Space
Public storage

Flexible modules designed for both personal and communal storage in offices and public spaces. Space is easy to integrate thanks to its consistent and thoughtful design. Well-crafted details such as fully covered doors, shoe shelves, and benches with front panels create a seamless and stylish ambiance. This is also reflected in the sustainability of Space, as products in white are approved according to Möbelfakta, made from sustainable materials, manufactured with social responsibility, and quality tested at RISE.

The modules in the Space series are created to fit together, allowing your imagination to flow freely as you assemble your unique solution. Choose from various heights for frames and fronts. Frames in standard white or painted in any NCS colour of your choice. Doors in painted MDF, any NCS colour of your choice, oak and ash laminate with a fully covered design. Open frames such as clothing storage, benches, shoe shelves, etc., are available in painted NCS colour of your choice, as well as in oak and ash laminate.

Explore the entire Space series, which includes personal and communal storage, wardrobes, seating modules, cabinets, recycling units, and more. Space comes with a standard plinth. For a different look, the plinth can be replaced with painted leg frames for an additional charge. Leg frames are available in our 11 standard colours.

Locks and Closures
We offer various types of locks and closures for our doors, such as electronic RFID locks, code locks, cabinet locks, padlock fittings, and push-to-open. For network-based locks, contact TreCe for individual advice.

Accessories
For Space storage cabinets, accessories such as movable shelves, mats, etc., are available.

Customisation
Space can be customized in both material and dimensions if you wish to put your own stamp on the furniture. Contact TreCe for advice and a quote.

Dimensions: Width x Height (incl. plinth). x Depth. **Frame and front:** 16 mm. **Plinth:** 143 mm. All doors are right-hung as standard.

Space

Cabinet & Recycling unit

Flexible modular design designed for both personal and communal storage in offices and public spaces. Space is easy to integrate thanks to its cohesive and thoughtful design. Well-crafted details such as doors with seamless design, shoe shelves, and benches that enliven with fronts create a seamless and stylish feeling. This is also reflected in the fact that Space is a sustainable choice as it is approved according to Möbelfakta, consists of sustainable materials, is manufactured with social responsibility, and quality-tested at RISE.

The modules in the Space series are designed to fit together, so you can let your imagination run wild as you build your unique solution. Choose between frames in white laminate or lacquered in any NCS colour. Doors in lacquered MDF, any NCS colour, which has a comprehensive design. Fronts are also available in oak and ash laminate. There are five complete modules for waste sorting and eight complete cabinets for the office's common storage.

Explore the entire Space series, including personal and public storage, wardrobes, seating modules, cabinets, recycling units, and more.

Specifications →

Space comes with a standard plinth; for a different expression, the plinth can be replaced with lacquered leg frames for an additional cost. Leg frames are available in our 11 standard colours.

Locks and Closures

We offer various types of locks and closures for doors, such as electronic RFID locks, code locks, cabinet locks, padlock fittings, and push open. For network-based locks, contact TreCe for individual advice.

Accessories

Space counters come with accessories such as movable shelves, bag holders and mats.

Customisation

Space can be customized in both material and dimensions if you wish to put your own mark on the furniture. Contact TreCe for advice and a quote.

Dimensions: Width x Height (incl. plinth). x Depth. **Frame and front:** 16 mm. **Plinth:** 143 mm. All doors are right-hung as standard.
NCS refers to product lacquered in one optional NCS colour.

Reference images of both standard and customised Space

Size: Width x Height (incl. base). x Depth. **Frame, fronts**: 16 mm. **Plinth** height: 143 mm.
All doors are right-hinged as standard.

Space Cabinet and Recycling unit

The Space storage series has counters and recycling units at working height, height 882 mm. Frames in single and double modules can be freely combined with shelves, partitions, doors and drawers in several variants.

Choose freely from any of the complete modules or assemble your own variant. Suitable bag holders are available as accessories. Holes are also available in the top panel at an additional cost. Complete modules with an inlet in the front and a pull-out bag holder inside the door, recommended rubbish bag 85-125 L.
The fronts are complete with push open fittings. Does not apply to doors with inlets.

Complete modules

Frame, plinth, back 16 mm thick: In white direct laminate, with 0.8 mm straight ABS edging.

Fronts, 16 mm thick, lacquered MDF:

White/White = Body in white laminate with fronts lacquered in NCS S 0500-N, white.
White/NCS = Frame in white laminate with fronts lacquered in any NCS colour.

Plinth height: 143 mm

CombiLine
Combi shelf

The Combi shelf, an adaptable storage unit. Build freely from floor to ceiling. Utilise the wall surface with a wall mounted combi shelf and create a unique module by freely combining together with optional accessories. The Combi shelf is available in standard white or lacquered in any NCS colour. Worktops for the lower models are also available as a supplement. Accessories such as legs, wheels and doors can be found on pages 92–94. Work tops for the lower modules can be found on page 90.

Specifications →

Add a worktop to low modules for a more integrated look.

CombiLine
Worktops

High pressure laminate, 23 mm standard work tops coated with high pressure laminate and 2 mm airtec-lipping*. MFC laminate 22 mm standard worktops have an outer paper layer coated with an impregnated paper and a finish of aluminium particles for extra protection against wear. 2 mm matching airtec-lipping.

Airtec-lipping, also known as laser edging, provides an almost invisible joint between the worktop and edging strip. Thus provides a higher protection against water and heat.
This new technology is glue-free, which results in a lower environmental impact.

Contact TreCe if you want a top disc in another material.

Worktops Rounded corners

Please note preferred radius of all corners when ordering.

Name	Radius	Art no.	EURO
Rounded corners	Min. radius 100	820010	**592**

High pressure laminate: 23 mm standard work-tops with high pressure laminate and 2 mm matching airtec-lipping.
- Formica Collection Colours
- Formica Collection Woods

MFC laminate: 22 mm standard worktops have an outer paper layer coated with an impregnated paper and a finish of Aluminium particles for extra protection against wear. 2 mm matching airtec lipping.

Airtech lipping: Airtec lipping, also known as laser edging, provides an almost invisible joint between the worktop and edging strip. Thus provides a higher protection against water and heat. This new technology is glue-free, which results in a lower environmental impact.

Inserts: Powder coated steel insert, available in white or black.
- Round with diameter 110, 250 or 400 mm.
- Square 250x250 mm or 350x350 mm.
- Slim 340x40 mm.

Lid for insert: Powder coated steel. Available for round inserts with diameters 250 and 400 mm.

Inserts: Stainless steel, integrated ring in worktop
- Round 250 mm in diameter.

Lid for insert: Compact laminate, folded in / integrated into ring, thickness 6 mm
- Round 250 mm in diameter with knob.
- Compact laminate, Formica F2297 (anthracite) alt. F1040 (white).

Inserts and lids, see page 88.

Contact TreCe if you want worktops in other high-pressure materials or other materials such as Valchromat.

Dimensions: Width x Height x Depth.

Lock types
Different types of locks and fittings are available for doors, such as electronic RFID locks, code locks, cabinet locks, padlock fittings and push-to-open. For network-based locks contact TreCe for individual advice.

General care instructions

Metal
Wipe with a slightly damp, soft lint-free cloth and mild detergent. Always wipe dry with a dry cloth. Never use solvents on painted metal nor any abrasive cleaners/ materials.

Wood
Wood is a living material and is affected for example by seasons, heat and humidity. Direct sunlight will give surfaces permanent colour and light differences. To avoid colour shifts, all surfaces should be exposed to equal amounts of light.

Normal/daily cleaning:
Dust dry and clean with mild soap solution or mild hand washing-up liquid. Wipe dry with a dry cloth. Never use strong detergents, solvents or products containing abrasives. Remove all stains as soon as possible and wipe the surface dry after cleaning.

Note! Use a minimum amount of water.

General info

Mounting
All modules are factory mounted. Worktops/ Cover panels/Top cover panels are mounted on site.

Warranty
We provide a 5 year factory warranty on Space. Other products, contact TreCe.

Contact TreCe for customisation of selected product.

Specifications

CombiLine

MFC laminated and lacquered surfaces within CombiLine have a chip core, with the exception of some shelves. Back, frame, doors and edge strips have the same colour/wood as other parts as standard, unless otherwise stated.

Frame
Thickness 19 mm, 0.8 mm straight ABS-lipping.
- MFC laminate white, beech, birch and oak.
- Lacquered available in any NCS-colour.

Back
Thickness 12 mm, laminate inside and outside.

Plinth
Every module has its own front and back plinth with 4 adjustable feet (does not apply to recycling units with loading ramps).
Plinth 157 mm. Can be replaced with;
- Bottom plate with adjustable stainless steel legs, height 157 mm.
- Bottom plate with lockable wheels, height 104 mm.

Doors
Thickness 16 mm, 2 mm straight ABS-lipping.
- White lacquered UV-treated MFC laminate (NCS S 0500-N), or MFC laminate in beech/ birch/oak.
- Lacquered in any NCS colour.
- Self closing concealed hinges with integrated soft closing (does not apply to products with aximat hinges with 180° opening).
- Single doors are right-hung as standard.

Drawer fronts
Drawer front, low: 173 mm
Drawer front, high: 349 mm
Thickness 16 mm, 2 mm straight ABS-lipping.
- White lacquered UV treated MFC laminate (NCS 0500-N) and MFC laminate in beech/ birch/ oak.
- Lacquered available in any NCS-colour.

Drawers
Drawers with depth 570 mm have soft closing.
- Extension 100%, max 35 kg (excl. recycling units).
- Extension 100%, max 65 kg.

Shelves
All shelves are adjustable and mounted with milled-in shelf support. Drill division c/c 32 mm.
- 312 – 605 mm have a chip core.
- 800 – 898 mm have a pine lamellar core.

Recycling unit
MDL60/MD60/MDH60/MD65/MD70
The bottom plate is equipped with an access ramp in stainless steel.
- Doors with aximat hinges for 180 degree opening for easy access to recycling containers.

Mail shelves
Adjustable with pull-out function and mounting strip, subdivision c/c 96 mm.
- Mail shelves in acrylic have integrated name slots.
- Mail shelves in powder coated steel white or black are available as an addition.

Steel doors mail sorting
White powder coated steel. Shelves inside in the same material as frame, 19 mm.
- Including lock and 2 keys with individual lock number.
- Inlet 22 mm. Open door gives a free space of 90 mm.

Wall modules
White lacquered mounting strip in steel is included for all wall modules.

Lock types
Cabinets locks, padlock fittings, code locks and RFID-locks (EM & Mifare). For network-based locks contact TreCe for individual advice.

Fitting pieces /Cover panels
Available as accessories in the same colour/ material as frame. Width, height and depth adapted to your requirements.

Handles
Stainless steel bow handles as standard, if you would like black or white handles, please not on order.
- Standard handles c/c 128 mm.
- Grip handles 40 mm.

Work tops
High pressure laminate: 23 mm standard work-tops with high pressure laminate and 2 mm matching airtec-lipping.
- Formica Collection Colours
- Formica Collection Woods
- Pfleiderer Wood decors

Airtech-lipping: Airtec-lipping, also known as laser edging, provides an almost invisible joint between the worktop and edging strip. Thus provides a higher protection against water and heat. This new technology is glue-free, which results in a lower environmental impact.

Inserts: Powder-coated steel insert, available in white or black.
- Round with diameter 110, 250 or 400 mm.
- Square 250x250 mm or 350x350 mm.
- Slim 340x40 mm.

Lid for insert: Powder-coated steel. Available for round inserts with diameters 250 and 400 mm.

Inserts: Stainless steel, integrated ring in worktop
- Round 250 mm in diameter.

Lid for insert: Compact laminate, folded in / integrated into ring, thickness 6 mm
- Round 250 mm in diameter with knob.
- Compact laminate, Formica F2297 (anthracite) alt. F1040 (white).

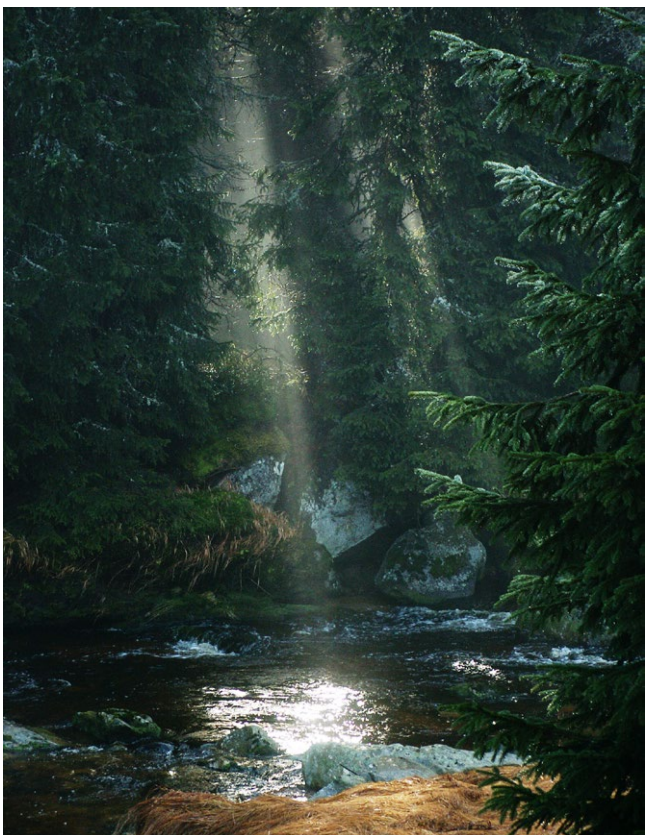
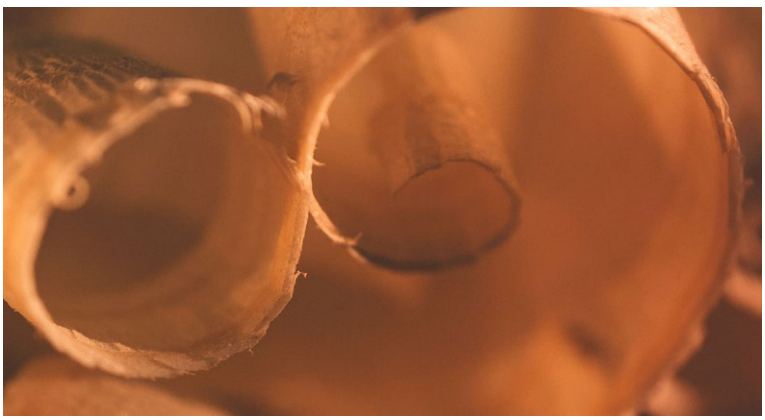
TreCe's sustainability work





How we work and what we do
We want to develop products with eco-respect, responsible supply chains and circular life. However, we know that change doesn't happen overnight, but simple and small actions do make a difference. Doing something is always better than nothing! Join us in our circular transition that is filled with opportunity.

We create room for sustainable actions.
In decision making, in projects or when discussing a matter, we make sure sustainability is present. We work continuously to raise awareness among our employees, customers and suppliers.

We are changing to new and better materials.
We're on the look-out for materials that are renewable, recycled, fast-growing, locally sourced and with a low carbon footprint. We are keen to change when we can.

We have a life cycle perspective
We give our products circular life with recycled materials, great lasting quality and smart design. This means they are easy to repair, reuse and recycle. We also test our products at a laboratory and have a generous warranty.

We want to work with responsible suppliers that we all can trust
We want to make sure that our suppliers are trustworthy to both their employees and surrounding environment. That's why we do frequent check-ups, risk analysis and evaluation through out the supply chain. Our goal is to have a supply chain with high transparency and low risk.

Made in Sweden
Our products are manufactured in Sweden, and we are focusing on moving our supply chain closer and closer.

Why choose TreCe?

From idea to reuse, in decision and action, this is where we create new conditions and opportunities for sustainable development and circularity. We want to make it easy for our customers to make sustainable choices, and together we can achieve the vision of a sustainable future. Join us in our circular transition

Here are some reasons to choose us:

- 174 unique products approved by Möbelfakta
- We are certified according to ISO 14001 and 9001
- We support the UN's Global Sustainability Goals 2030
- We have the sustainability information in our product sheets
- We have sustainability goals and policies
- We use recycled materials
- We keep track of our suppliers in the supply chain
- We require the supply chain to operate in accordance with our Code of Conduct
- We offer circular solutions
- Production in Sweden
- We aim to continuously reduce our ecological footprint

We support the Sustainable Development Goals

We want and will actively contribute to achieving the Global Goals for 2030 and to limiting global warming to well below two degrees by 2050. We have selected 5 goals that reflect our activities and where we have the best opportunity to influence, these goals we will have as a starting point in our future work over the next 10 years.

Approved Möbelfakta products

An approved product gives us and our customers security and reassurance that the product meets the requirements for the environment, quality and social responsibility. Möbelfakta is a complete reference and labelling system for furniture owned by IVL Swedish Environmental Institute and Trä- och Möbelföretagen, TMF. Möbelfakta serves as a tool for sustainable choices and is for producers, purchasers, designers, architects, and others who use or work with furniture.

TreCe is certified according to ISO 9001: 2015 and ISO 14001: 2015

ISO 14001 is an environmental management system that aims to improve and rationalise environmental work. Through environmental impact assessment, environmental goals and routines, an active environmental work is created, which in turn reduces our ecological footprint.

ISO 9001 shows that we work both internally and externally with continuous improvements, routines and monitoring that ensures the quality of our products and services. In short, that our customers and partners always get the best possible reception and service.

Read more about how we work with sustainability on our website.

Terms and conditions: Storage

Sales and Delivery Terms: All prices are excluding VAT and shipping. We reserve the right for any price and design changes and reservation for printing errors.

All products are delivered FCA (our warehouse) according to Incoterms 2020 unless otherwise agreed. Some products are delivered unassembled. Costs for packaging, certified pallets and pallet collars will be added.

Payment terms: 30 days after approved credit check unless otherwise agreed. Delivered products remain our property until full payment is made.

Transport damage: In the case of visible damage or incomplete delivery, this must be reported immediately to the transport company and noted on the consignment note. The freight forwarder confirms the listing with his signature. Damage that is not visible upon receipt is reported to the transport company as soon as possible, but no later than 6 working days from the date of receipt.

Claims: In the event of a product defect or if the content of the delivery deviates from the order, a claim must be made within 6 days of arrival date. *Send us an email to info@trece.se*

Returns: TreCes policy is not to accept returns except for defective products.

Warranty: The warranty is valid from the delivery date of the product. Invoice/order number must be provided for the warranty to be valid. The warranty does not apply to products that have been stored or assembled incorrectly, used in an inappropriate or improper manner, altered in appearance/function or cleaned with an incorrect cleaning method or cleaning products. The warranty does not cover shipping damage, normal wear and tear, scratches, marks or damage caused by impact or accident. The warranty does not cover products that have been placed outdoors or in a damp environment, or products that have been used for purposes other than those for which they are intended.

For products intended for outdoor use, the above-mentioned humid environment does not apply, but the warranty period is halved for products installed within 200 m of a coastal environment. The warranty does not apply to outdoor products that develop surface corrosion over time as this is purely aesthetic and can be corrected with touch-up paint.

CombiLine: 5 years warranty

Space: 5 years warranty

Office family: 1 year warranty

Accessories such as Recycling bins, Bag holders: 1 year warranty

Soft: 2 years warranty

Wall mounted storage: 5 years warranty

Drawing cabinet: 2 years warranty

Lock: 2 years warranty
